CANOPY LIGHTING

Reduce Cost & Increase Customer Satisfaction

The cost for lighting is more than 30% of the electric bill at a gas station. Reduce energy costs while providing better lighting with less glare for your customers.

LED & INDUCTION

- 0-10V Dimming, Bi-Level Dimming, Wi-Fi Control options available.
- Photocell & Motion sensor options for increased energy savings.
- Bright White light (5000°K) for greater visibility and safety.
- Replace gas canopy and service area fixtures up to 400W.
- InstantOn flicker-free Cold Start and Hot Re-Start.
- 20 Year maintenance free operation.
- 5 Year & 10 Year product Warranty.
- Wattages range from 40W - 250W.

RETROFIT LIGHTING

Reduce Energy Consumption and Costs

Retrofit existing fixtures with Custom Retrofit Kits. It is the most economical way to install new long-life lighting at your station. We will customize and certify each Retrofit Kit to guarantee the lowest project cost and shortest payback time.

LED & INDUCTION

- Retrofit existing canopy and area lighting fixtures up to 1000W
- Bright White light (5000°K) for greater visibility and safety.
- InstantOn flicker-free Cold Start and Hot Re-Start.
- 20 Year maintenance free operation.
- Wattages range from 40W - 500W.
- 5 year product Warranty.
