Next Generation Battery Storage is Here!

Specifications

Initial Capacity
13.5 kWh

DOD
100%

Nominal Voltage
48.0 VDC

Installation
Wall/Floor
Indoor/Outdoor

Warranty
20 Years

Capacity Maintenance
93% after 10,000 cycles

Operating Temperature
-30 C to +50 C

Power Draw
12 kW Continuous

Weight
275lbs/125kg

Cycle Life
20,000 @ 80% DOD

Features

- Service life up to 25 years
- Power grid outage solution for home or office
- Grid or Solar charging
- On-Grid Demand Response Networked Source
- Certification Standards:
 - UL 642
 - EC 62619/UL 1973
 - Grid Code compliant

Part of Utility Owned Cloud controlled Energy Network
